July-2020 -July-2023

EXPERIENCE

PW SkIlls
Frontend developer   **june-2023 Nov-2023-**

- I have gained knowledge and expertise in a wide range of technologies and practices that are essential for web development. Honed my skills in ReactJS, JavaScript, CSS3, and HTML5, enabling me to build dynamic and interactive web applications. Well-versed in implementing industry best practices for writing clean and maintainable code. Worked with Tailwind CSS, a powerful utility-first framework, which allows me to create visually appealing and responsive designs efficiently.

PROJECT

- **News webiste**
  this is a basic of a news website created using HTML, CSS, and a bit of JavaScript width Api to include a search bar. This is a static example, so the search functionality will just filter through a list of articles on the page.
